ORDER FORM

Public Safety Architecture provides an in-depth analysis of the planning, designing, and construction of Public Safety Buildings for the 21st Century. This 182 page book is a compilation and celebration of Architects Design Group's knowledge and 40 years of experience in the design of Public Safety Buildings.

This "How To" guide provides Emergency Managers and Community Leaders with the knowledge base for implementing and planning their new EOC's and Public Safety Buildings. Because of the intricate and specific tasks being performed in buildings of this type, great care and expert knowledge is required in the design and building. The information in this book will enlighten and educate your community's leaders of the complex architectural design required for any EOC and/or Public Safety Building.
